Pool Table, Furniture, Clothes & much more!

Sudden Cardiac Arrest Facts:

- More than 350,000 Americans die each year from sudden cardiac arrest
- On Average it takes EMS teams in the United States 6 – 12 minutes to arrive at an emergency scene
- For every minute that passes without defibrillation, a victims chance of survival decreases 10%
- CPR alone has survival rates of 2% - 5%, when an automated external defibrillator(AED) is deployed and used quickly , survival rates of 50% or greater have been recorded
- **AEDs SAVE LIVES**

If you can't make it to the Garage Sale but would still like to contribute please send checks to:

Shauna Ann Stuewe Foundation
P.O. Box 27246 ♥ Anaheim Hills, CA 92808
www.shaunastuewe.com

Tax Id: 39-2072421
501© (3) application is in process

Funds raised will be used to help California schools purchase and implement AED programs.
